**EBS (Emergency Bunker Surcharge) Installation in May 2026**

Dear Valued Customer,

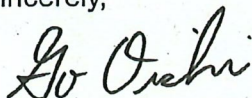

We would like to inform you of our EBS installation from May 2026.

We had announced the BAF (Bunker Adjustment Factor) to be applied from 1 April, 2026, to 30 June, 2026. However, due to the recent situation in the Mid East, crude oil prices and ship fuel prices have surged sharply since March 2026. Our company has also been striving to reduce costs and improve operational efficiency as much as possible, but fuel costs account for a large portion of operational costs, and it has become extremely difficult to absorb the current price increases by our own efforts alone. In response to this change in the operating environment and to continue providing stable service, we would like to inform you of the introduction of EBS (Emergency Bunker Surcharge) as follows.

- |                                  |   |
|----------------------------------|---|
| 1. Port of loading / discharging | : All loading ports / All discharging ports   |
